Cyber Security Awareness Training Datasheet

About Cyber Security Awareness Training:

This is an engaging and interactive workshop which systematically explores the evolution of the global cyber threat and how this affects both individuals and organizations. The cyber threat landscape is exemplified through case studies and videos, to enrich the learning experience.

The workshops are tailored to meet the unique needs of the organization, and are typically of two to three hours duration.

Participants will be enriched with a new level of awareness and understanding of the global cyber threat landscape and actors, and the role which an employee can play in defending against these threats.

Target Audience:

Staff members, especially those who use the internet.

About the Course:

- ✓ Course is conducted over a 3 hr session.
- ✓ Course is delivered via presentations with a knowledgeable facilitator delivering the content.
- ✓ Each attendee will receive a course manual covering the topics and content delivered during the presentation(s).
- ✓ Cyber Security Awareness Introduction training course can be delivered on the customer's premises or at the GNL Cyber head office based in Hurlingham Manor – Sandton.
- ✓ Should the course be conducted on the customer's premises, the customer shall be responsible for providing lunch and refreshments.

Key Benefits:

Each workshop will provide delegates with:

- ✓ A greater level of awareness of the global cyber security threats, attack targets, areas of vulnerability, and consequences on individuals and organizations;
- ✓ A deeper understanding of the areas of greatest threat to themselves and the organization;
- ✓ Insights into the actions which should be taken to minimize cyber risks to themselves and the organization and
- ✓ Improved readiness and empowerment of the delegates to participate as a cyber-defender as part of the organization's risk mitigation strategies.

Gold N' Links (Pty) Ltd trading as GNL Cyber
